

1" IND STRAIGHT IMPACT WRENCH

Brand: Toku

Product Code: MI42EFS

TOKU 

1" IND STRAIGHT IMPACT WRENCH

1" Square drive rear handle impact wrench, made in Japan. This tool features a unique Cold Forged Twin Hammer mechanism making it far superior to any other on the market in its class. This is the big brother to the MI38 series and comes with unmatched power, weight and most importantly durability.

This product is an industry favourite due to its lightweight and high power, coupled with the safety internal trigger. It is both lightweight and very well balanced, which helps to reduce any RSI complaints - a great OH&S feature!

Features:

- * Cold Forged Twin Hammer - far superior durability
- * Lightweight
- * Well balanced
- * Safety Inside Trigger
- * 4 step speed control
- * Solid and easy to operate forward/reverse switch

This tool has proven itself as a great all round 1" impact wrench used in tyre shops, vehicle service, heavy manufacturing, construction, mining and offshore industries to name a few.

The anvil comes with both ring and hole socket retaining system, further adding to the flexibility of this tool. This tool will be sure to please - we are confident of this!
